

Marc Solà Nadal

[Barcelona, Spain] [mail@marcsolanadal.com] . [+34 636290957]

Summary

Technologist with a background in web development, Linux, and electronics.

Experience

On a break (2022 - present)

- Due to COVID-19, I decided to take a break and spend time with my loved ones and in my garden. I also learned new exciting technologies (Web3, WebAssembly, C and Rust) and drastically changed the way I learn using a knowledge management system.

Front-End Tech Lead (GFT Technologies, 2019 - 2022)

- Helped +20 colleagues on React, Redux, and unit testing problems.
- Migrated multiple projects to a testing stack based on Jest, Testing library, and Cypress.
- Embedded the first WebComponent of the online banking website, rendering a custom CMS solution. Used vanilla Javascript.
- Solved architectural problems as part of the front-end architecture team and maintained component system. Used Styleguidist.
- Implemented features for a client in the banking sector. Used Angular 10, Typescript, RxJs, Transloco, and Storybook.

Front-End Developer (GFT Technologies, 2017 - 2018)

- Developed front-end features for a client in the banking sector. Used React, Redux, Styled Components, and HTML/CSS.
- Implemented a custom bar chart in React used by multiple projects.

Full-Stack developer (atSistemas, 2015 - 2016)

- Developed back-end of in-house automatization tools for building hybrid mobile applications.
- Worked on an insurance sector project solving critical issues with the product owner.

Junior Full-Stack developer (Micronax, 2014)

- Implemented OAuth2 login protocol for multiple vendors in a hybrid mobile game.
- Reported directly to the product owner in an international team based in Norway.

System administrator (Barcelona University, 2011 - 2013)

- Managed and maintained a RedHat cluster and network of medium size.
- Compiled and optimized the Linux kernel to improve the performance of a cluster. Gaining a 20% performance boost on all systems.
- Help desk on more than 200 users.

Education

Degree in Electronics, Barcelona University (2009, 24 ECTS left)

- ERASMUS in Norwegian University of Science and Technology (2013 - 2014)

Certificate of Higher Education in Computer Programming (2008 - 2010)

Hobbies and interests

Game development, Japanese, knowledge management, gardening, and chickens.
